

Uninterrupted Power Supply**Description:**

CMR-UPS is a high-performance back-up power solution, using internal electronic circuitry to measure, calculate and store battery data, for more predictable power management. It handles both high and low voltage pulses to provide an uninterrupted power source and prevents any outside interference. It provides protection for low pressure / over-voltage, overload, over current, over temperature, short circuit, and reverse polarity.

Features:

- Compact appearance, light weight
- Built-in fuse for secure reliability
- Seamless connection with mobile DVR
- Lasts for about 40 minutes when the vehicle is cut off power

CMR-UPS Uninterrupted Power Supply Specifications

Model	Type	Capacity
CMR-UPS	LFP	2000mAh

Power

Input Voltage: 8~36V

Capacity: 2000mAh

Output Voltage: 9.6V

Max Charging Voltage: 10.5V

Charging Current: 0.2C

Charging Time: 5~6 Hours

Charging Protect: Auto recover

Over currents Protect: Auto recover

Short Circuit Protect: Yes

Features

Name: Vehicle Smart Battery

Type: LFP

General

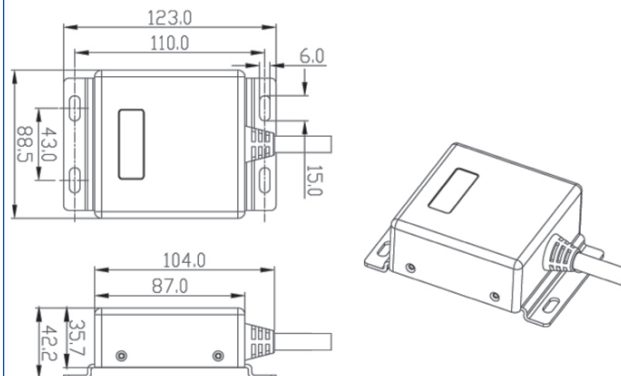

Operating Temperature: Working Temperature:-10°C ~ 60°C
Storage Temperature:-40°C ~ 85°C

Cycle Life: 2000 times ≥70% power capacity

Weight: 650g

Dimensions

(L × W × H): 123mm(L) x 88mm(W) x 42mm(H)
